OUR CREATIVE PARTNERS

Our Miniature World is composed of carefully selected content creators and digital sculptors which, paired with some of our own original sculpted and 3D printed designs, allows us to enhance your tabletop game or wargaming nights with only the best quality models. Much of our content comes from paid print licenses obtained through Patreon and Kickstarter Campaigns. This keeps our shop consistently growing each month with new models available for purchase as they're released by our partners! If you don't see what you're looking for in our shop already, feel free to look through the shops of those in which we're licensed to sell through the links below and [send us a message](#) with what you'd like us to print!

Let's Get Started

Proudly serving in Philadelphia, Pittsburgh, Cherry Hill, North Jersey, and New York. [Click here to see office locations.](#)

Saldutti Law Group is a boutique creditors' rights and collection law firm with locations in both New Jersey and Philadelphia. We serve clients in the areas of creditors' rights, bankruptcy, foreclosure, commercial collections, real estate, and loan workout and offer a full network of services to commercial and financial institutions, including banks, leasing companies, credit unions, and more. In conjunction with these services, Saldutti Law Group is fully compliant under Federal and related CFPB guidelines.

We consider ourselves one of the area's top creditors' rights firms because we consistently achieve successful recovery for our clients. The reason for our success rate is our ability to collect accounts that our clients feel are "noncollectable" – accounts that might be dormant for as long as six years. Our firm has established a reputation as a tough, efficient, and thorough team of collection professionals. We continually stay abreast of the changing requirements concerning the FDIC, OCC, and Consumer Regulation.

The Value of Experience

mpi.

CONTINUING LEGAL EDUCATION PROGRAMS: FORENSICS

MPI leadership provides expert subject Continuing Legal Education (CLEs) to train legal professionals and help attorneys increase their knowledge base when handling complex financial matters. Clients reach out to MPI professionals, nationally recognized for their expertise and consistent results in helping solve client complex legal matters.

Incise, Rigorous &  
Trusted: Since 1939

## ABOUT MPI: THE VALUE OF EXPERIENCE

Management Planning Inc. is a prestigious national consulting firm founded in 1939, specializing in six core practices: Valuation and Transaction Opinions; Gift and Estate Tax Valuations; Forensic Accounting and Fraud Investigation; Economic Damages Consulting and Valuation Disputes; Matrimonial Litigation; and Investment Banking.

MPI provides fairness opinions, sell-side and buy-side advisory services through its investment banking affiliate MPI Securities, Inc. MPI conducts every project as if it is going to face the highest level of scrutiny, and its senior professionals have extensive experience presenting and defending work product in front of financial statement auditors, management teams, corporate boards and fiduciaries, the IRS and other government agencies, and in various courts.

For additional information pertaining to MPI or MPIIS, please visit [www.mpival.com](http://www.mpival.com).

**JAMES T. O'BRIEN:**  
**MANAGING DIRECTOR**  
Forensic Accounting & Fraud Investigations

James O'Brien, CPA, CFF, leads MPI Forensics Practice and CLE Program. Jim has 30 years of expertise in forensic and financial consulting and accounting services, working with attorneys, insurance companies, governmental agencies, as well as public and private corporations. With a professional background that includes leadership positions at Baker Tilly and Price Waterhouse Coopers LLP, Jim provides financial consulting analyses related to matters in dispute and performs investigative services that are generally related to the reconstruction of financial activity involving fraudulent financial transactions.

Jim is a nationally recognized leader in the field, having co-authored Performing Credible Lost Profits Analyses, published in The Comprehensive Guide to Economic Damages (2016). He frequently lectures and presents at AICPA conferences, including the Web Series "Voices of Fraud," an AICPA Webinar.

## DOCUMENTING CONSTRUCTION CLAIMS / PROVIDING CONSTRUCTION LITIGATION SERVICES

This course can be structured to address knowledge needs from basic to advanced construction analytics and complex construction related issues. MPI's CLE on construction provides a comprehensive analysis of construction related issues.

A step-by-step use to calculate inefficiency of professional construction specialists and analysis of construction claims.

## ANALYZING FINANCIAL STATEMENTS / UNDERSTANDING RELATED FINANCIAL INFORMATION

This course can be structured at a basic level to gain an understanding of financial statements, or as an advanced level course focused on the complex data and financial analysis.

When analyzing financial statements are not part of your daily responsibilities, knowing what is important can be overwhelming. MPI's financial analysis program helps attorneys gain a better understanding of:

- Relevance and importance of the financial documents in the litigation process;
- Related supporting financial information and how to connect the information to the financial statements;
- How experts link the financial records to the damage calculations;
- How to use the financial information to build a business valuation calculation from the financial records.

## FINANCIAL EXPERTS

This course is structured as an advanced CLE program that focuses on damages calculations. MPI presents an in-depth view of the advantages and disadvantages from the perspective of a plaintiff and defendant when preparing a credible expert witness damage calculation and opinion. It focuses on:

- Dos and Don'ts of working with financial data.
- Examples of what has worked, and when the courts have concluded the expert failed to calculate damages to a reasonable degree of professional certainty.
- Assumptions experts utilize and rely upon as a basis for their expert opinion.
- Various ways experts can contribute to the litigation process.
- Legal and factual elements of causation and how causation impacts the damage calculation.

The MPI logo consists of the lowercase letters "mpi" in a white serif font, set against a red rectangular background.

# OEM vs Aftermarket

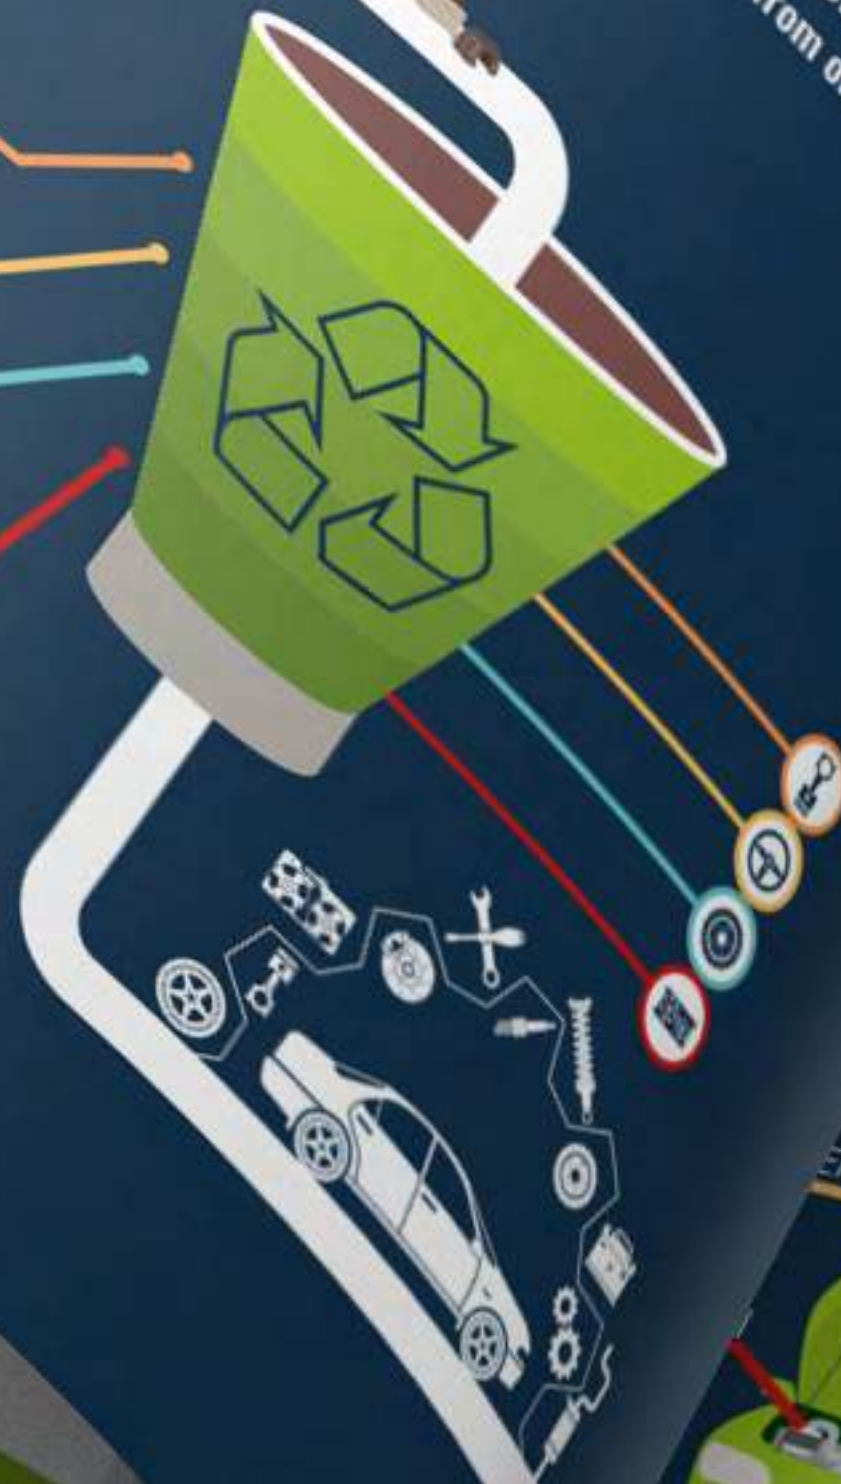

**End of Life Vehicles or ELVs are the most recycled consumer product in the world.**  
 Worldwide, over 25 million tons of materials are recycled from old cars, trucks and other vehicles.

**ELVs are recycled in four steps:**

- Dismantling
- Crushing
- Shredding
- Material Recovery

- 39,090 pounds of steel
- 1400 pounds of copper
- 120 pounds of limestone

### Dismantling

Fluids are siphoned off into massive tanks where they're stored until they can be delivered to a recycling facility.

PCI VENTURES

PCI  
VENTURES

PENN  
CENTER FOR  
INNOVATION

**2017 SPOTLIGHT**  
FOSTERING THE ENTREPRENEURIAL SPIRIT

## ABOUT PCI VENTURES

### OUR MISSION

PCI VENTURES' MISSION IS TO MAXIMIZE THE POTENTIAL OF PENN'S PIONEERING RESEARCH TO THE BENEFIT OF THE UNIVERSITY, THE INVESTIGATIVE TEAM, AND SOCIETY IN GENERAL THROUGH THE CREATION AND STIMULUS OF ENTREPRENEURIAL ENDEAVORS.

## OVERVIEW OF OUR SERVICES

We provide a suite of products and services to incubate the development of early-stage technology-based businesses as they make their way towards commercial success.

PCI Ventures actively seeks entrepreneurs to lead our companies and investors to provide funding for our portfolio of new ventures in development.

PCI VENTURES 2017 SPOTLIGHT

## PCI VENTURES STATISTICS

seven years in operation

15-20 companies started per year

48 companies have received funding

60 active companies

130+ jobs created

\$111+ million raised in funding

\$11 million back to Penn from sponsored research

38 unique sources of funding

9 companies generating revenue

10x return on investment

5 exits

8 verticals

2017 statistics

13 executives hired

\$11.1 million raised by 9 companies

\$1 million back to Penn from sponsored research

## TESTIMONIALS

"Working with PCI Ventures has been tremendously helpful. Moving to contributions in the commercial sector rather than the academic world is not an easy one for faculty. PCI Ventures' broad knowledge, willingness to help, and proactive guidance has made it possible to be both a professor and a founder in a medical device company - something I would never have imagined to be possible."

**DR. MARK YIM,**  
FOUNDER OF PREDO SYSTEMS AND GREPPO TECHNOLOGIES

"PCI Ventures offers an excellent program for commercializing innovative technologies from the University of Pennsylvania. The organization was instrumental in helping Quantitative Radiology Solutions receive non-dilutive funding from the National Science Foundation and the National Institutes of Health STTR grant programs, and connecting us with providers of accounting, insurance, and payroll services. PCI Ventures offers multiple opportunities for entrepreneurs to network and support each other in building successful companies."

**JOE CAMARATTA,**  
CEO OF QUANTITATIVE RADIOLOGY SOLUTIONS

"We have been a proud partner of PCI Ventures for several years. They have been instrumental in both facilitating our ability to invest in emerging technologies from Penn as well as supporting the evolution of these technologies into viable and compelling commercial enterprises. From our vantage point as a dedicated, University-focused, hard science investment platform, PCIV provides Penn with a unique and highly valuable capability to engage with partners such as ourselves and to drive the successful commercial exploitation of its research and intellectual property."

ImmERGE

RY, FOUNDER OF IMMERGE LABS

"The most rewarding of  
we find out that someone  
has saved a life. That is a

**LR ge**

**RION LEARY, FOUNDER OF IMMERGE LABS**

in Leary is a tireless innovator. Whether it's in her formal role as Director of Innovation Research at Penn's Center for  
itation Science or in her honorary role as Philadelphia's Geek of the Year, she is always working to develop new ways  
"tech for good." It is not surprising, then, that Marlon's company, ImmERGE Labs, is harnessing virtual and augmented  
systems to modernize emergency response that are entirely devoid of the stress and emotion that characterize sudden cardiac arrest  
in unrealistic environments that are accessible to everyone. When asked what the most rewarding aspect of founding  
s. Marlon plans to turn that antiquated training model on its head by using multisensory, immersive VR/AR platforms  
ke "learning by doing" opportunities accessible to everyone. "The most rewarding aspect hasn't happened yet - that will be when we find out that  
Rge Labs has been, Marlon pauses. "The most rewarding aspect hasn't happened yet - that will be when we find out that  
one who has trained on one of our platforms has saved a life. That is our ultimate goal. That is why we do this."

*"The most rewarding aspect hasn't happened yet - that will be when we find out that someone who has trained on one of our platforms has saved a life. That is our ultimate goal. That is why we do this."*
